

## keywrist basic

The waterproof, reusable RFID wristband that gives you access to some unique business advantages.

### Make the most of a deposit business model

- Get extra cash in the bank by charging a deposit to issue reusable wristbands.
- Low-cost investment due to its reusability.
- The highly durable construction withstands all sorts of extreme conditions.

### Visible Difference

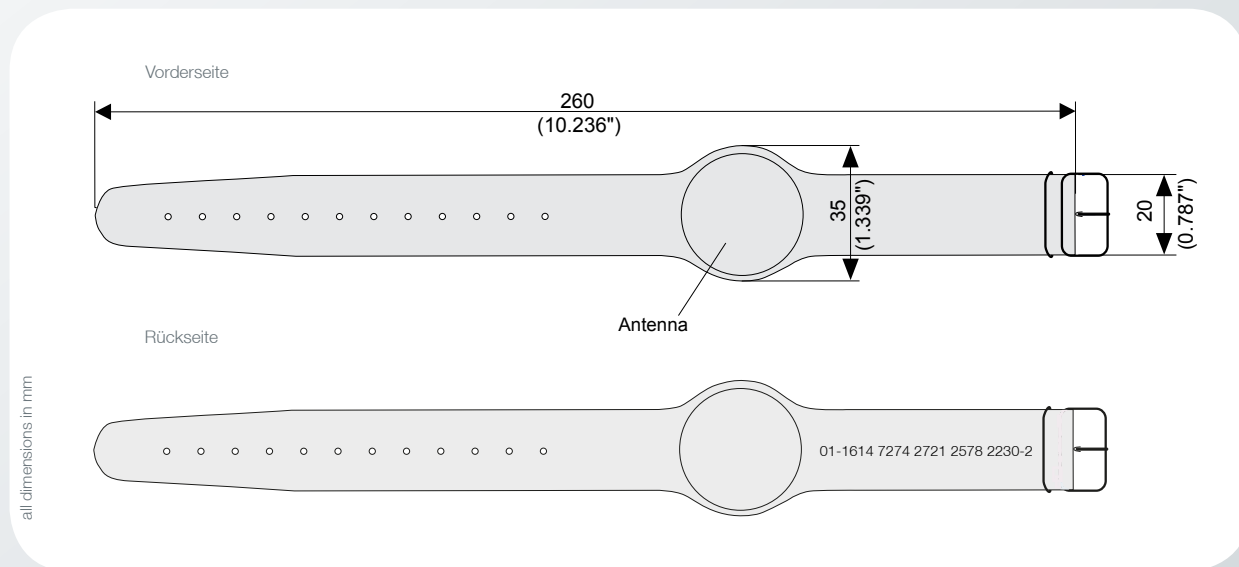

- The keywrist basic is available in dark blue, light green and red.
- Visually differentiate various groups with different colors, such as children or VIPs.

### One product, many uses

- The wristband can be used in different places and for additional services, e.g. in amusement parks with additional parking space management.
- Multiple applications allow you to bundle products and form valuable business partnerships.

### Maximum comfort

- Users benefit from the ease of use – ideal for water parks and baths.
- You'll appreciate fast scanning of users through gates and security features to minimize fraud.

## Features

- Laminated wristband, designed for several years of use
- Can hold multiple applications at the same time (hotel, parking, leisure park)
- Suitable for various authorizations, including single-ride tickets, non-consecutive-day tickets, time-based tickets and value debit cards
- Wristband with electronic data carrier
- Secure SKIDATA FlexSpace plus open FlexSpace
- Fraud protected, similar to credit cards
- Supports DirectToAccess (DTA) functionality
- Hands-free access
